ALICE 'SIT-BY-THE-FIRE' PLEASES ITS AUDIENCE

Class of '29 Makes Final Dramatic Bow—Miss Ruth Hare at Her Best in Leading Role

PARTS REALISTICALLY PLAYED

"Alice Sit-by-the-Fire" was presented Wednesday night, April 17, by the Senior Class and Masquers. The Seniors, under the leadership of their crown by the successful presentation of this clever play of Barrie's. This was their last appearance on the Winthrop stage and the class of '29 in terms of the play was made extremely complicated and unusually interesting by the scheme of a plot which the audience followed until the very end what the outcome would be; this outcome, being a huge surprise, added much to the enjoyment of this play.

The characters were so realistic and so well portrayed that the audience felt the performance was being given by a real star cast and not by an amateur troupe. The many parts of the audience showed that the presentation of the humorous parts was not lost to them and served as a testimony of their enjoyment of the many unusual situations characterized by Barrie's work. In fact, these girls acted their parts so well that the impression that the characters were stepping from the leaves of Barrie was created.

The typical English setting which made this play most realistic was characterized by Miss Mims' usual good taste. Attention was given not only to the larger and more important, but also to the smaller and more minute details of this colorful setting, which served as an ideal background for the unusual plot and dexterous characterizations.

Good of Characters

Alice Grey—Ruth Hare.

Colonel Grey (her husband)—Elizabeth Hines.

Any (their daughter)—Florence Papp.

Gosno (their son)—Rose Ellis.

DR. MAGOFFIN TO SPEAK ON APRIL 23

Noted Archaeologist of New York University to Tell of Recent Discoveries

LECTURE TO BE ILLUSTRATED

On Tuesday evening, April 23, the students of Winthrop College will have the opportunity of hearing one of America's foremost archaeologists. Dr. Ralph Magoffin, now of New York University, will lecture on "Recent Discoveries in Archaeology." Dr. Magoffin is president of the American Archaeological Institute and also of the American Classical League. He was at the time in charge of the American Academy in Rome and has for years kept in close touch with exploration in the field of archaeology. In his illustrated lecture he will give an account of recent excavations and of some of the most important finds.

The science of archaeology is one of the most romantic and thrilling pursuits in which man is engaged. It is only a half century since Schliemann began the excavation of ancient Troy and by his work there and succeeding excavations at Mycenae, Greece, and on the island of Crete revealed to the world that wonderful Mycenaean civilization, the connecting link between the Orient and historic Greece. Again and again the science of archaeology has come to the aid of the historian and its findings verified or disproved many a chapter in ancient history.

A person is plunging his field and some coins are unearthed; their evidence may settle some disputed point on ancient chronology. Two fishermen lower their nets into the Aegean Sea and on the bottom they unwittingly drag forth may be a masterpiece by some Greek sculptor. It will be many a day before the last chapter of ancient history will be written. Excavations are being made today at many historic sites. Occasionally an important discovery is noted in the newspapers, and a person's mind is turned to the fact that all the students will be present Wednesday night to learn the fate of Soviet Russia. Will or will not the United States extend recognition to that government?

DRUSILLA GEE IS NEW SOPHOMORE LEADER

Popular Member of Rising Sophomore Class Named as President Thursday Evening

UNUSUALLY INTERESTING LIFE

At the Freshman class meeting Thursday evening, Miss Drusilla Gee was chosen to lead the Sophomore Class for next year. Her record, recognizing her abilities in her previous years, led her to the office as efficiently as Drusilla will. It has been said that the Sophomore class is a class of girls of executive enthusiasm than any other class president. Accepting this statement as true, we feel sure that Drusilla will make an excellent president for her class.

Miss Gee has lived an unusually interesting life. She was born in China and lived there for over nine years. During part of the time of her residence there, a Boxer rebellion was in progress. Three years ago she entered the tenth grade of Crenshaw High School. Graduating from the same school, she has made the Freshman Class last fall.

Although Miss Gee has been at Winthrop for only a few months, her record here indicates a bright future for her class. Since she came to Winthrop, she has always been distinguished. She now holds one of the five honorary scholarships given to the most outstanding girls of her class.

THE OLD GIVES WAY FOR THE NEW

The recent elections have again brought us to the realization that the old must give way for the new. For many months the student management of the college has been in the hands of girls who have expertly sailed the great ship, Winthrop, through both calm and troubled waters. They have managed her with capable and loving hands, and now that their voyage is nearly over, they are heaving her into port, to put her into new hands. With unflinching courage the crew has sought to keep their vessel within the same broad channel of high principles and worthy objectives through which it has always sailed. As they cast a backward glance over their nearly completed task, they may, perhaps, wish that they had done some things differently, but we, knowing that success is marked by things accomplished, can assure them that their work has been well done.

We feel a bit sorrowful at the thought of the old order changing, but a feeling of joy and confidence surges up within us as we realize that the work will be carried on by girls who are capable of accomplishing things that will bring honor and pride to themselves and to their Alma Mater. The student body has shown wisdom and foresight in its selection of officers for 1929-1930, and for these girls, as they come to their various offices, we wish that success may attend their every undertaking.

THE CAROLINA-WINTHROP DEBATE

On Wednesday night, Winthrop College will have its first intercollegiate debate with an institution within the State. Last year the college initiated debating with other institutions by sponsoring the debate with Vassar College. This pioneer attempt at establishing a new custom at Winthrop met with great success. The students evidenced keen interest in the debate, and it did much to cement a feeling of goodwill with Vassar.

It is an especially good thing for our students that this year the debate is with an institution in South Carolina. Winthrop has always been interested in Carolina, and this coming debate promises to do much to promote the feeling of friendship between the two institutions. The future still retains the secret of the outcome of this clash of units, but no matter whether we win or not, Winthrop will put up a splendid fight, and let the Carolina students take back with them a good idea of the grit and spirit of our campus. This is only our second intercollegiate debate, but we feel that we are making vast strides toward establishing a custom which will broaden our contacts and bring us into closer relationship with many colleges and universities throughout the United States. This is indeed a forward movement on the part of Winthrop College, and one which should receive the enthusiastic support of every Winthrop student.

DR. KOTSCHNIG TALKS TO I. R. C.

Opportunities Open to American Students to Promote Cause of World Fellowship

EUROPE LOOKS TO AMERICA

"I think I've studied and visited the other countries of the world enough to know what I'm talking about when I say that there's no nation on the earth so generous as America," when Dr. Kotschnig made this statement before the International Relations Club Thursday afternoon, he clinched the attention of the group that had gathered in the Rose Room of Johnson Hall to hear him.

As a representative of the International Students' Association, Dr. Kotschnig explained that the student organizations of Europe have a desire to cultivate a closer relationship with American students. But in spite of this inclination, the nations of Europe and America are gradually growing apart. America feels that Europe is hopeless; Europe has a feeling of animosity toward America. The recent war has not done much to help, but yet they are of sufficient wealth to create distrust. For one thing, American tourists, while in Europe, buy as much as possible in locations where the native inhabitants can scarcely supply the necessities of life. This makes the natives feel that the American is exploiting them.

Another cause of this feeling is the question of the war debts. Dr. Kotschnig expressed the opinion that America has every legal right in the world to demand payment of the war debts, but he said that even more if she so desires, but that America would be doing the wisest thing if she would cancel the debts. It is Dr. Kotschnig's belief that because of the animosity between the continents, there is a situation arising that will eventually bring the two continents to war. And it is up to the students to put a stop to present conditions.

At present, there are three religious international student organizations, the World's Christian Organization, a Catholic organization and a Jewish one, and four neutral organizations, the International Christian Service, the International Confederation of Students, a union to promote the ideas of the League of Nations, and the Association of University Women, that have been organized for the purpose of counteracting this antagonism. "If we want to get anywhere, though, we must have a discussion of some of the things that are practical and not talk so much about peace," after making this statement, Dr. Kotschnig explained some of the many opportunities open to American students for the accomplishment of some of these practical services. There will be many conferences in Europe this summer to which students are welcome. If about five per cent of the student tourists would visit some of them, a vast amount of good could be done. There is actual suffering among the students of Europe. Bulgaria was used as a specific example, and some vivid incidents were related to exemplify this suffering. By showing an inclination for closer relationship, and by sharing some of our luxuries with them, "American students can help these suffering ones to live a decent life."

Another opportunity open to students is India. Because of the political and religious differences among the groups of people, antagonism is widespread among the Indians. American students are asked to introduce some of their co-operative work in India, and to form an organization on an impartial basis so that all the groups might be brought together. And then, the coming of a new India is a goal that could easily be reached.

Dr. Kotschnig closed his appeal with these words: "When I think of the old diplomacy, of the old politics, and of the old securities in former governments, I realize that something must be done. If we—the students of the world—do not create a new leadership, what is going to happen?"

DR. ELLEN GLEDITSCH ADDRESSES A. A. U. W.

International President Gives Interesting Account of Six Years of Study With Mme. Curie

THE VALUE OF FELLOWSHIP

The Rock Hill Branch of the American Association of University Women, was most fortunate to secure as guest and speaker on the evening of April 13, Dr. Ellen Gleditsch, president of the International Federation of University Women. Dr. Gleditsch came to Rock Hill directly from New Orleans, where she was a honored speaker at the International Dinner of the Biennial Convention of the A. A. U. W. Dr. Gleditsch, a graduate of the Sorbonne, is a scientist of distinction as well as a student of world affairs. Her first collegiate work was done at the University of Oslo, where she is now a member of the faculty. In her speech to the Rock Hill branch, she gave a most interesting account of her six years of study with Mme. Curie in the field of radio-activity, and of her year's fellowship at Yale University, where she studied radio-activity with Dr. Bertrand Boltwood in the Sloan Laboratory.

"My own fortunate experiences in being able to conduct research in foreign universities," said Dr. Gleditsch, "have inspired me afresh to promote such opportunities for other women. The international exchange of laboratory facilities enhances the prospect of the development of science." Dr. Gleditsch told how the International Federation of University Women in the nine years of its existence, has promoted and effected change of fellowship in other lines of study, as well as in the field of science. Students in small countries and in the less well-endowed universities have been supplied with opportunities that hitherto existed only in larger and richer countries. "But," continued Dr. Gleditsch, "we always keep in mind that the greatest work of internationalism is what we accomplish to promote understanding and friendship between the university women of all nations, and thereby to further sympathy and understanding among their countries."

Besides the members of the Rock Hill branch, fifty or more invited guests from the college community had the privilege of hearing Dr. Gleditsch and of meeting her informally after the lecture, among these being several groups of Winthrop students, belonging to the President's Council, and the Senior Order, besides the student officers of the International Relations Club. Dr. Gleditsch was very happily introduced to the audience by Miss Mary E. Fraser, the State president of the A. A. U. W. Mrs. A. W. Huckle, the local president, presided. Dr. Gleditsch delighted her audience not only by her brilliancy of intellect, but by her large-heartedness and charm.

STUDENT POETRY SOCIETY DISCUSSES MODERN WRITERS

The Student Poetry Society held its regular meeting Monday evening at 6:30, in Mr. Brown's classroom. Miss Hall delighted the members with a discussion of some of the poems of modern writers, and read selections by Agnes Lee, Harriett Monroe, and Arthur Davidson Ficke. The theme of Miss Hall's discussion was that the poetic is what is removed from us, but not so far removed as to be unknown or unfamiliar, and that the fascination of poetry lies in its combination of the known with the unknown.

BOOKS ARE DONATED FOR RURAL LIBRARY

Book Week under the direction of Mrs. James P. Kinard of the Rock Hill Branch of the A. A. U. W. in co-operation with the Rock Hill Federated Clubs, was quite a success. Many magazines and a number of books were donated as a nucleus for a rural library for York County. These will be turned over to Miss Eva Hile, one of the county supervisors for York County, for distribution at some rural center during the summer months.

MR. JAS. P. KINARD SPEAKS IN CHAPEL

In Address to Students Friday Refers to Art Exhibit in Main Building

CHARMING AND FORCEFUL TALK

In chapel, Friday morning, President Kinard made a few remarks regarding the art exhibit that is now in the art room on the third floor of Main Building. It is a very fine exhibition of the pictures of Southern artists. After referring to a few of the pictures on display, President Kinard introduced Mrs. Kinard, who spoke briefly on the subject of art.

By her direct and delightfully informal manner, Mrs. Kinard, always a forceful speaker, secured and retained the attention of her audience. A few of the reasons for her appreciation of art stressed by Mrs. Kinard were:

"I asked to speak about the art exhibit for three reasons: First, on account of what pictures mean to me; second, because America is rapidly acquiring a great number of the most famous masterpieces of all time. You find them in the galleries of all our large cities, and third, because here in the South we have paid too little attention to art of any kind."

"If you learn to love pictures, you will enrich your life. A great artist must have a vision, and with creative imagination he makes a new synthesis of the meaning of life. He must have the power of selecting just what things can be grouped together to make a picture. He must have a passionate feeling for light, color, movement, and finally he must have craftsmanship to be able to put all of this on his canvas. Go to see this present exhibit. If you do not find any of these qualities in the pictures, go back, again. If still you don't see anything in them, at least wish that some day you may understand what artists are trying to tell you when they paint pictures."

Collegiate Exchange

"The Bulldog" in its last week's issue made the following remark in regard to our publication:

"The Johnsonian appears to be the well organized, journalistic mind like scrambled eggs to an epure!" This was supposed to have been quoted from an "authority."

"Well, girls! That ridiculous 'Bulldog' has backed again. You will notice by the above quotation that some 'Poor Fish,' their own nose de plume, hit on our remarks of last week. It is amusing how the Bulldog's publication hides behind holidays and conventionalities to justify its belittling remarks in regard to other colleges. April Fool Day is an ideal time in which to play tricks, but we're sure that the Eskimo Mirror, the P. C. Blue Stocking, and other targets for the Bulldog's bright remarks will agree with us that a more sportsmanlike attitude should be taken in our little game of exchange, unless the editors care to enter into collegiate disfavor and become journalistic-ly ostracized."

And in regard to whether "April Fools' Day" is "All Fools' Day" or not, this seems to be a question of "All's out of step but Jim!" As to the taste in eggs—greater appetites than ours, "Gunga Din," have preferred scrambled eggs to hard-boiled ones!

The authority which the Bulldog quotes, we lay small stress upon, as that seems to be one of its seemingly sophisticated complexes in trying to appear superior. In all of this somewhat childish dissertation we are reminded of the old man who said when kicked by a mule—"Consider the source!"

Sophistication is a splendid pose for the people who dare life, but never take the dare.—Philip Dunne.

Harry McArver: "Haven't I always played fair with you?"
Buddy W.: "Yeah, you're fair, but I like them warmer."

The Important Question: Medium: "The spirit of your wife is calling me! Shall I ask her?"
Widower: "Ask where she put my summer underwear."

Not a Chance
Chauffeur:—"No, danger, sir; the boss said I'd lose my job if I did."

Timely Question
Neway—I see by the papers that "His Master's Voice" sold for \$500.
Truthful—Geel Are they selling waxes now?

Literal Len
Boss: "Boy, call me a taxi!"
Office Boy: "All right, sir. You're a taxi."

HIGH SCHOOL TRACK MEET IS HELD HERE

Representatives From Twenty-Two Schools of South Carolina Compete at Winthrop

WINNERS SHOW MUCH HABILTY

Last Friday and Saturday, April 12 and 13, the Winthrop Athletic Field was the scene of a most exciting and hard-fought contest. Representatives from 22 girls' high schools in the State competed for track and field honors. The teams were remarkably evenly matched, for, after the final event was recorded, it was announced that three teams, Buford, Chester and Columbia, had tied for first place, with scores of 22 points each. Second place went to Gaffney, 13 points; Clinton, with 9 points, came third; Anderson, 8 points, won fourth place. In individual honors, Rowell, of Buford, was highest scorer, with 12 points. Lucas, of Chester, and Duncan, of Gaffney, tied for second place, with 10 points each; Plexico, of York, won third, with 9 points.

The contest was not only unusual in the closeness of scores, but also in the fact that three records were broken and two new ones established. In the preliminaries Friday, Monodius and Jones, both of Columbia, set a new record of 6 seconds for the 50-yard dash. In finals, Lucas, of Chester, broke the record for 75-yard dash, doing it in 4.5 seconds. Duncan, of Gaffney, conserved the basketball throw with a record of 57 feet 5 1/2 inches to her credit. This year the 240-yard relay was replaced by a 220, the record time of 27 1/4 seconds being made by the Chester team. The 65-yard hurdles gave place to 65-yard ones, Rowell, of Buford, completing the course in 10 seconds flat.

In all events the winners are to be commended for their splendid ability. The record of events is as follows:

50-yard dash: First place, Lucas (Chester), time 6 1/4 seconds; second, Columbia.

Basketball throw: First, Lucas (Gaffney); second, York.

Running high jump: First, Alarms (Columbia); second, Buford.

Discus throw: First, Duncan (Gaffney); second, Columbia.

65-yard hurdles: Rowell (Buford); second, Anderson.

Basketball throw: Plexico (York); second, Chester.

Running broad jump: Rowell (Buford); second, Rock Hill.

75-yard dash: Lucas (Chester); second, Columbia.

Shot put: Williams (Buford); second, Clinton.

Relay race, four on team, 220 yards: First, Chester (Hines, Lucas, West, Lewis); second, Columbia.

The schools entered in the meet were: Aiken, Anderson, Batesburg, Rock Hill, Buford, Camden, Chester, Columbia, Clinton, Clover, Fort Mill, Gaffney, Lancaster, Laurens, Ninety-Six, Rock Hill, Saluda, Timmonsville, Whitmire, Wilton Consolidated, Winnsboro, Winthrop Training School, York.

Miss Sefton, head of the physical education department, was in charge of the meet. She was ably assisted by Misses Hoffman, White and Clark, and the members of the Senior physical education class.

ORATORICAL CONTEST TO BE HELD APRIL 26

moting the cultivation of oratory in these colleges. Because of its worth-while purposes, the annual contest has come to create widespread interest throughout the State. The 1929 contest will represent the development of South Carolina collegiate oratory in its highest stage, and will undoubtedly prove to be the most excellent yet held in the history of the association.

DR. KOTSCHNIG TELLS OF STUDENT LIFE IN EUROPE

Secretary of International Student Service Addresses Students in Chapel

EYES OF EUROPE ON AMERICA

Thursday morning at chapel we were fortunate in having Dr. Walter Kotschnig, executive secretary of the International Student Service, speak to us.

Dr. Kotschnig opened his talk by contrasting student life of the world. Then he took us back to the year 1920 when he was a student in Austria. That was two years after the war. Military was everywhere; hundreds of thousands were starving. Vast numbers of students were living on one meal a day or one meal every two days. At that time the World Student Christian Federation came to Vienna. Great Britain, America, and countries which the Austrians had been taught to hate were the ones who came so nobly to the aid of the stricken students.

Here Dr. Kotschnig paused to ask, "Do you realize what that aid really meant?" Then he proceeded to analyze its meaning.

On the one hand it showed an international crisis just when the tension was unbearable. There was social significance. Thirty thousand German students are now working on numerous jobs. Before, education was a privilege; now it became essential. As for religion the students had lost faith in everything, help just at this time made them realize that Christianity was the noblest force in the world.

Despite all these good effects there is still more relief work to be done. Dr. Kotschnig gave instances in a certain university of 3,000 students where over 1,200 were living on less than \$11 a month, 450 on less than \$7 a month and approximately 100 on less than \$4.

It is a sad fact that the public is becoming hard-hearted and refuses to give freely. In the first year of the relief work, \$200,000 came from the United States; last year only \$8,000.

Today the eyes of Europe are turned toward us. European students are asking "Is America going to stand by us?"

HIGH SCHOOL MUSIC CONTESTS ARE HELD

Representatives From Many High Schools of South Carolina Here Yesterday and Today

ORCHESTRAS CHIEF ATTRACTION

On April 19 and 20, Winthrop College had as guests students from the various high schools throughout the State who entered the South Carolina High School Music Contests. The contests were held in the Winthrop auditorium. The following program was carried out:

Friday Morning

9:30 to 10:30—(1) Flute solos; (2) Saxophone solos; (3) Clarinet solos; (4) Cornet solos.

10:30 to 12:30—(1) Tenor solos; (2) Mezzo-soprano or contralto solos; (3) Baritone solos; (4) Violin solos.

Friday Afternoon

2:30 to 4:00—Piano solos. 4:00 to 6:00—Soprano solos. 6:30 to 8:30—Supervisors' and judges' supper.

Friday Night

7:30 to 11:30—Girls' Glee Clubs, Boys' Glee Clubs and mixed choruses.

Saturday Morning

9:30—Stringed ensemble. 10:00 to 12:30—Orchestras. 12:30—Awards.

12:30 to 1:30—Music Memory Contest.

One of the chief attractions of the contest were the high school orchestras. Charleston High School was represented by an orchestra of 14 pieces; Florence by one of 22, and Darlington by one of 27. First prize for the orchestra contest was a bronze plaque of wood. This beautiful prize is presented by the Music Supervisors' National Conference and the National Bureau for the Advancement of Music. It is a permanent prize.

The South Carolina contest is fortunate in having as chief judge Frank Beach, director of music at the Kansas Teachers' College, Emporia, Kansas. Mr. Beach originated the music contest fifteen years ago at his school in Kansas. His presence makes the contest one of unusual interest.

Since these contests have been held in South Carolina for only three years, their growth is truly remarkable. Those schools which entered the contests this year are: Charleston, Kenosha, York, District, McCormick, Florence, Fort Mill, Chester, Cheraw, Rock Hill, Woodruff, Batesburg, Leesville, Camden, Darlington, Greenwood, Winthrop Training School, Sumter, Lancaster and Greenville.

WORK OF SOUTHERN ARTISTS ON DISPLAY

Paintings and Etchings May Be Seen

in Art Department on Third Floor of Main Building

Paintings and etchings by artists from Kentucky and Florida, Mississippi and Alabama, North and South Carolina, Louisiana, Georgia and Tennessee, as well as from Texas, may be seen in the Sixth B Circuit Exhibition of the Southern States Art League, now being shown at Winthrop College until Wednesday, April 24.

Among the artists represented are: Rosa McIntyre, Elizabeth O'Neil, Vernon, Emma Gilchrist and Mary Graves. Rosa McIntyre, a native of Richmond, Va., had one of her pieces accepted last year for the salon in Paris. She is represented in the exhibition by "Morning Mourning in Arles." Mrs. Vermer is always faithful to Southern types—whether of landscape, street scenes, or as in this instance, a study of old "Mam Lydia," the ancient colored mammy. Mrs. Vermer is a native of Charleston, S. C.

"Midsummer in Bossie's Reserve" is the painting by which Emma S. Gilchrist is represented in this exhibition. Miss Gilchrist is also a native of Charleston, and has lived there always. Mary Graves, whose drawings in Chapel Hill, N. C., of the old historic buildings have drawn attention to her work, has lately turned her attention to making drawings of the notable characters in the faculty of the University of North Carolina. "The Philosopher" in the current exhibition is a study of individually rendered in charcoal, the medium she prefers.

IMPORTANT MEETING
HELD IN CHARLESTON

Winthrop Represented at Southern Regional Conference for Home Economics and Agriculture

The Southern Regional Conference for Home Economics and Agriculture, at which Winthrop was represented by Miss Alice B. Foote, professor and head of the Home Economics Department, and Miss Sarah Grasswell and Miss Florence Andrews, teacher trainer in Home Economics, is a conference to bring together State supervisors and teacher trainers in both branches of the work from the twelve Southern States.

All South Carolinians will be proud that the twelfth annual convention was held at Charleston when they consider the satisfactory settling the convention because of the severe competition of all the cities in the South. Charleston will be hard to surpass for a convention city. The Fort Sumter Hotel as headquarters, was ideal with its wonderful setting, but the prominent citizens of Charleston were really responsible for the success of the convention under the able leadership of the two State supervisors, Miss Lillian Hoffman and Mr. Peterson.

Entertainment of every variety was given especially to the women. They were invited to supper with Miss Anne E. Richardson in Summerville, taken to the wonderful Magnolia Gardens as well as the Middleton, and a tour of the city was planned for Saturday. Many delightful joint meetings were also provided. Mrs. Pinkney's wonderful plantation of Juneberry was opened and the Agricultural Society, the oldest in the country, entertained a joint session for luncheon under the marvelous live oak tree where 150 persons sat at tables under less than half the tree.

They also took the two groups to Fort Sumter and Fort Moultrie in a government boat and served refreshments on route.

Among the most noted guests were all the members of the Federal Board of Vocational Education, both men and women, and prominent men of Charleston as well as the State supervisors and teacher trainers of the 12 States.

As a whole, the meeting was most enjoyable and instructive.

"How did Jim get that saw jaw?"

"A girl cracked a smile."

"Well?"

"It was his smile."

The
Doings of
the Y's Girls

Mr. T. B. Lanham, executive secretary of the State Y. M. C. A., made an impressive talk at the Wednesday evening prayer service. Mr. Lanham gave us a recipe for happiness. "If you would be happy," he said, "you must do three things. You must study God's Word. That means that you must study it daily, you must study it thoroughly, you must study it prayerfully."

"You must lead a life of prayer," he continued. "Know God; make him your intimate friend," through daily communion in prayer.

"In the third place," he said, "you must make your life a life of service. Right here on the campus you have opportunity to be of service to those about you, to your teachers, your fellow class-mates."

Keep this in mind, girls, that the best way to be happy is to make others happy."

Calendar of Activities

Monday, 5 p. m.—Counselors' meeting.

6:30-7:15—The Charm School: Charm of Christianity, Mrs. Grauel.

Tuesday—5:00, Meeting of Y. W. C. A. Cabinet. 6:30-7:15, Charm School: Charm of Christianity, Mrs. Grauel.

Wednesday—5:00, Meeting of Freshman Cabinet. 6:30, Prayer meeting, Miss Snellings.

Thursday—6:30-7:15, Charm School: Charm of Courtesy, Dean Seuder.

The Y. W. C. A. elected officers for the year 1929-30 during the past week. Those elected were: Laura Fair, vice-president; Margaret Barton, secretary; and Anna Hyde, treasurer. The new cabinet will be appointed soon.

It has been the custom for several years for Clemson Y. M. C. A. to exchange delegations. Last month eight Clemson boys conducted our weekly prayer service. It is our turn now! A delegation of five girls will go to Clemson to conduct vespers services the week-end of April 27, 28. Helen Witherspoon, our president-elect, will be the speaker of the occasion. Estlin Biles, Elwyn Robinson, Thelma Cook and Mary Hammond will furnish music for the program.

Dr. and Mrs. Naudain and Mrs. Grauel will leave here at noon Saturday and return Sunday night.

Our delegates will be entertained by the Clemson Y. M. C. A. and will be guests in Clemson homes.

R. S. I. A. DISCUSSES SCHOOLS AND GROUNDS

On April 15 the R. S. I. A. held its monthly meeting. The program was one of particular interest, dealing with the school, its grounds and equipment, a subject that is still vital in the South Carolina schools.

Edwina David read a paper on "The School Building and Ground," which pertained particularly to sanitation, the appearance of the school, and the aid and interest of the community. A talk on "Program of the One-Room Country School" was given by Helen Snyder. A touch of humor was added to the program by a story, "Ellie's Wishes," read by Virginia Ferrell. This story told how to teach health habits in a school.

At the close of the meeting the president urged the members to be present at the next meeting for the election of the new officers.
